“ From the day you moved in, you were the smile and friendly face that I would see and hear downstairs from me. I loved our chats over the balcony or even in each other's home. I appreciated the fact that we kept tabs on each other as well for health reasons. Verna was the very best neighbor I have ever had and will definitely be hard to replace. We laughed and cried and I know that the past few months were very hard on her, physically as well as emotionally. I am going to miss her smile and and most of all, her friendship. I will see you again, my friend!! Love to you and your family.

“ Verna my dear friend my best friend. You were always the sweetest lady to me. I know your last month's here were tough. But you pushed thru to the end. You always had a precious smile and that is what I loved about you the most. I will miss you till the day we meet again. Love you always,
